

Upcoming Speaking Engagements; Winter Speaker Line-Up

Boston, MA (February, 8, 2010) – Today’s presentation at the Reinhold Environmental NOx Roundtable in Chattanooga, TN kicked off of a busy month of NeuCo speaking engagements. Ray Johnson delivered a presentation on Boiler Optimization Advancements that highlighted the benefits for units with SCRs and SNCRs and those with steam temperature, opacity and soot-related tube rupture issues. For a copy of the presentation, email us at info@neuco.net. NeuCo also plans to speak at McIlvaine Company’s February 25 GHG Hot Topic Hour Webinar and the American Coal Council’s Spring Coal Forum. **Following are the event details.**

McIlvaine Hot Topic Webinar February 25th, 2010 at 10:00AM/CST:

The webcast “**Greenhouse Gas Strategies for Coal-fired Plant Operators**” will address the current state of development, the economics, the potential GHG reductions achievable, and the advantages or disadvantages of the various options that operators of coal fired power plants have to mitigate greenhouse gas emissions from the combustion of coal. NeuCo’s Peter Spinney will discuss the role of optimization software in improving power plant efficiency and thereby reducing the amount of fuel consumed and GHG emissions produced.

American Coal Council, Spring Coal Forum March 2-4, 2010 Clearwater Beach, Florida

**“Addressing Environmental Regulation of Coal-Fueled Generation”
Wednesday, March 3rd from 9:30-11:30AM**

NeuCo, along with Black & Veatch, the U.S Department of Energy, Benetech and ScottMadden Consultants will discuss the “**State of the Industry – Coal Industry Health & Risk Assessment**” at this year’s ACC. The panel will examine approaches for conducting a comprehensive, integrated assessment of the many and varied challenges affecting the coal industry. Each speaker’s topic will discuss the industry’s regulatory, marketplace and technical issues, recognizing that the cumulative effects are likely to have a greater impact than the sum of their parts.
