

## NeuCo's Summer Tradeshow Calendar in Full Swing

**Boston, MA (August 5, 2011).** As summer begins to wind down for most of us, the NeuCo tradeshow schedule is just beginning. Participation includes the AEP Boiler Reliability Optimization Forum (BRO) and Coal Gen 2011, both held in Columbus, OH during August.

The 10<sup>th</sup> annual ***AEP Boiler Reliability Optimization Forum (BRO)*** will be held from Aug. 9-11, 2011 in Columbus, Ohio. "*A Decade of Improvements*" is the conference theme with emphasis on new boiler technologies and process improvements, best practices, and lessons learned. Hundreds of AEP employees, vendors, and guest utility representatives will be in attendance to share industry knowledge about boiler related subject matter. This will be NeuCo's first time attending this AEP-run event and we'll be exhibiting at Booth # 530 in Exhibit Hall D. For more AEP BRO details visit: <http://aepevents.com/e/bro-2011/>.

For the 8<sup>th</sup> consecutive year, NeuCo will be exhibiting and presenting at **Coal-Gen 2011** in Columbus, OH from August 17-19<sup>th</sup>. Our longstanding customer & NeuCo Champion, Bruce Partlow of TMPA will present "*Advanced Optimization Applications at TMPA Gibbons Creek*" on Thursday 8/18/11 from 1:30pm-3:30pm in Session # 3C2. The presentation will cover the integration of CombustionOpt® with Foster Wheeler's ECT/CADM system, which measures coal flow to the boiler corners and optimizes airflow to each combustion cell, as well as the expansion of their optimization program to look at total unit performance. We'll be exhibiting at Booth #913 so be sure to stop by and say hello! For more Coal Gen details visit: <http://www.coal-gen.com/index.html>.

If you'd like to receive a copy of the Coal Gen presentation, email us at [info@neuco.net](mailto:info@neuco.net)
